

John Napierala

Joined Allied Sportsmen on 2-21-1985.

I am a current member of the Allied Sportsmen board of directors since 2017.

When I joined, I was interested in the archery program.

I became interested in the pistol and trap disciplines as well and tried those disciplines which I enjoyed.

Allied Sportsmen was also involved with high power rifle back in the day. We had M1 Garands on loan from the Civilian Marksmanship Program which I was able to use in high power matches.

Along with Herman Knause, I initiated the first archery vs. pistol shoot at our club which continues to this day.

The first time I became a board member was in 1986 and vice president in 1988 to 1991.

In 1993 I became the archery chairman and implemented a two year term to get other archers active with club business and was active with archery up to 2005.

I am retired from the automotive industry.

Like most of our members I'm an avid outdoorsman.

I would appreciate your vote in the next election to continue to move our club forward.

Thank you for your support.
